## Travel Advisory

**2** Exercise increased caution

***Reissued with updates to health information.***

Exercise increased caution in the Dominican Republic due to **crime**.

**Country Summary:** Violent crime, including armed robbery, homicide and sexual assault is a concern throughout the Dominican Republic. The development of a professional tourist police corps, institution of a 911 system in many parts of the country, and a concentration of resources in resort areas means these tend to be better policed than urban areas like Santo Domingo. The wide availability of weapons, the use and trade of illicit drugs, and a weak criminal justice system contribute to the high level of criminality on the broader scale.
