Travel Advisory

Nicaragua

3 Reconsider travel

Reissued with updates to information on arbitrary enforcement of laws.

Reconsider travel to Nicaragua due to **arbitrary enforcement of laws, the risk of wrongful detention, and limited healthcare availability**. Exercise increased caution in Nicaragua due to **crime**.

Country Summary: Throughout Nicaragua, government and law enforcement officials continue to target individuals and organizations seen as opponents of President Daniel Ortega and his wife, Vice President Rosario Murillo. U.S. citizens, including dual Nicaraguan-U.S. citizens, have been subject to revocation of Nicaraguan citizenship, reentry bans, expulsion, and other actions. The government and its affiliated groups have been reported to:

- Arbitrarily prevent individuals from entering or departing Nicaragua by air or land for perceived associations.
- Search personal phones, computers, and documents for anti-government content, limit photography of government property, and sometimes seize devices.
- Systematically target individuals for political reasons, regardless of nationality, including former allies, political activists, business representatives, clergy, human rights advocates, civil society leaders, academics, and members of the press.
- Arbitrarily target pro-democracy advocates and their family members.
- Confiscate privately-owned land, residences, financial assets, and personal property without warning or due process.
- Arbitrarily detain, accuse, and charge individuals with terrorism, money laundering, and organized crime offenses for political reasons without respect for fair trial guarantees.

U.S. citizen residents of Nicaragua also report increased scrutiny of alleged political speech.

U.S. citizens arrested in Nicaragua may find themselves subject to prolonged detention without charges or respect of fair trial guarantees. The judicial process lacks transparency, especially in politically motivated arrests and property dispute cases. Political influence and pressure may influence the outcome of legal

proceedings.

The Department has determined the risk of wrongful detention of U.S. nationals by the Government of Nicaragua exists.

Travelers should exercise increased caution and be alert to the risks of crime, including violent crimes such as sexual assault and armed robbery.

Poor infrastructure in parts of the country limits the Embassy's ability to assist U.S. citizens in emergencies. U.S. government personnel under Chief of Mission security responsibility may be subject to restrictions on their movements at any time.
